

INSTALLATION INSTRUCTIONS

<u>Product</u>	<u>Revision</u>	<u>Form</u>
7160-1789	Rev. A	INST-1125
KEYBOARD, 2-in-1 ATTACH, ET4X 10"		Printing Spec: PS-001

This instruction sheet is for the Gamber-Johnson 2-in-1 Attachable Keyboard only. For instructions on features, set-up, and operation of the Zebra tablets, please refer to the user guide on zebra.com.

This attachable keyboard is designed to be used with the Zebra ET4X 10" tablets without the rugged case and is compatible with the Windows and Android models. It is designed to assist users in the rugged market and be used outside as well as in the office. It is not designed to be mounted in a vehicle as it does not meet the specific safety standards Gamber-Johnson requires for rugged products in the vehicle. Gamber-Johnson offers a full line of products to mount the tablet in the vehicle. Please visit gamberjohnson.com for more information.

This instruction sheet is for the following products:

- Item No. 7160-1789-00** English (US)*
- Item No. 7160-1789-01** English (UK)
- Item No. 7160-1789-02** German
- Item No. 7160-1789-03** French
- Item No. 7160-1789-04** Spanish

For more language options, please contact a Gamber-Johnson or Zebra representative.

*All images in this document are of the U.S. keyboard layout only.

Product Mounting Disclaimer
Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brakes lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with the original vehicle manufactures specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.

FEATURE IDENTIFICATION - KEYBOARD

Camera Opening

Cover

Corner Tablet Opening

This space allows access to the tablet to help remove it from the Cover.

Built-in Kickstand

Provides support when the tablet is open.

Carry Handle

Allows for easy hand carrying and the potential to add a shoulder strap to each corner. See page 4.

Side Walls

Provide docking guidance, prevents mis-docking, and adds strength.

Bumpers

Speaker Opening

Drain Holes

Allow excess water to drain.

Hinge

Shoulder Strap Holes

These can accommodate a clip-on shoulder strap. See page 4.

Top Latch Ridge

Provides the latching function to hold the tablet down. Easy to slide on and off.

Pogo Pin Connector

Connects the keyboard to the tablet.

Touchpad

Capacitive touch allows for multi-finger gestures.

USB 2.0 Input Port (500 mA)

Provides a port to quickly connect digital devices such as flash drives or a mouse.

Rubber Keys

Standard U.S. keyboard layout with 12 function keys.

Mouse Buttons

Rubber Pads

Provide protection and a non-slip surface.

Part Number Label

Provides information on the product. Reference this label regarding any service needs.

INFORMATION ABOUT USING THIS PRODUCT

Environmental Conditions

This keyboard, including the Pogo Pins and the USB2.0 Input Port is IP54 rated. No plug or cover is needed. This rating applies with or without the tablet; however, any damage to the product, even if the product is still functional, may negate the IP rating. There is also a pair of Drain Holes at the bottom corners of the Cover to help drain excess water. The Connector Adapter is IP65 rated while attached to the tablet.

This keyboard is rated for use and storage at these temperatures:

Operating -20 °C to 50 °C (-4 °F to 122 °F)
Storage -40 °C to 85 °C (-40 °F to 185 °F)

This keyboard is tested to a hybrid of Gamber-Johnson rugged standards including life cycle testing of the hinge and the removal of the tablet. It is designed to assist in the rugged market, but it is NOT designed to mount in a vehicle.

Using the Product

This keyboard is designed to be plug & play with both Windows and Android tablets. Simply insert the Connector Adapter and dock the tablet. It is now ready to use.

There is a USB 2.0 Input Port that supplies 500 mA of power. This port can be used to quickly and easily attach a flash drive, mouse, or other digital device with a USB type A plug.

There are 12 function keys as well as a range of preset quick keys. These keys may not perform the same function on each platform or program.

The keyboard is designed to work with the Cover open from 90° to 122° but is best at 122°. The Rubber Pads and Built-in Kickstand provide support and prevent the keyboard from slipping while being used. The Cover opens to a max of 122°. (See right.)

There is a hard stop to prevent it from opening further. Trying to open the Cover beyond this angle may result in permanent damage.

All features of the tablet including the camera, microphones, speakers, USB-C port, and buttons at the top, remain accessible. Use the USB-C port on the tablet to charge the tablet. (See right.)

The blue Bumpers and other features provide support for the product to survive vibration if it is loose in a vehicle and closed. They also provide limited support for accidental impact and drops.

The Carry Handle adds mobility while moving and stability while using on a table. The Carry Handle has one hole on each corner that can accommodate a plastic snap-on shoulder strap. The recommended Zebra product is SG-ET5X-SHDRSTP-01. (See right.)

DOCKING AND UNDOCKING THE TABLET

Docking the Tablet

Visit our website and YouTube channel for more information about the product.

1. Open the Cover by holding down the keyboard and pulling up on the top. It will rotate at the hinge.

2. Position the tablet in the Cover by placing the bottom onto the Pogo Pin Connector. The Side Walls will guide the tablet into the correct location.

3. Rotate the tablet back into the Cover. Snap the Top Latch Ridge over the tablet by pressing on the back of the cover, near the corners.

"Latched" Position

Undocking the Tablet

1. Using your thumb, push upward on the corner of the Top Latch Ridge. There is a slight platform to push on. At the same time, pry forward on the back corner of the tablet using your fingers. Do this on both sides at the same time.

2. Once the top edge of the tablet is free from the Top Latch Ridge, remove the tablet.

KEYBOARD DETAILS

SPECIFICATIONS

Data Port	USB 2.0 type A, 500 mA
Charging Port	Use tablet USB-C port??????
Power	Keyboard uses power from the tablet?????
Dimensions	274.1 mm (10.79") x 248.2 mm (9.77") x 50.1 mm (1.97")
Weight - Keyboard	0.857 kg (1.89 lbs)
Weight - with Tablet	1.610 kg (3.55 lbs)
Operating Temperature	-20 °C to 50 °C (-4 °F to 122 °F)
Storage Temperature	-40 °C to 85 °C (-40 °F to 185 °F)
Ingress - Keyboard	IP54
Ingress - Adapter	IP65
Drop - System *	0.61 m (24.0") to wood
Drop - Adapter **	1.00 m (39.4") to concrete - matches tablet
Life Rating	3,000 cycles inserting tablet, 30,000 cycles opening/closing
Speakers	Use tablet speakers
Mounting	None
Compatibility	??????
Warranty	1 Year

* The keyboard system is designed to be durable and survive minor drops and contact, but is not intended to be a fully rugged device.

** When attached to the tablet, the connector adapter will not compromise the drop rating of the tablet.
