GETAC S410 LAPTOP DOCKING STATION

Engineered for the demanding work environments in utility, public safety, and material handling.

Designed to protect the Getac S410 semi-rugged computer, Gamber-Johnson's docking station offers rugged construction for durability. The docking station is thin and light, featuring a spring-loaded connnector to ensure connectivity even in the toughest terrain. The docking station is built with a push and turn lock with key for theft deterrence. To lock, just simply insert the rear portion of the computer and then push the latch and turn the lock.
